26 January 2026

www.ht.digital

We have been requested to review the collateral in relation to the Unitas (USDu - 9ckR7pPPVvPadACDTzLwK2ZAEeUJ3qGSnzPs8bVaHrSy) token. As of 26 January 2026 14:41:41 UTC time, 96.089m USDu tokens were in circulation, and we have had sight of the following collateral:

Asset	USD Value (\$ million) ^[1]
USD1	53.311
JLP	14.967
USDC	10.718
USDT	7.260
BTC	7.040
USDF	4.242
Other assets	12.691

^[1] The valuation is based on quantity of collateral at the timestamp above, multiplied by pricing data obtained from CoinGecko (<https://www.coingecko.com/>).

We understand from management that these assets are held in segregated accounts and wholly for the purpose of collateral against the USDu token. Balances on centralised exchanges include open margin positions with unrealised profit and loss (PnL). Please note that we have not performed any procedures over whether any security has been placed on these assets.

In the future, HT.Digital will perform an ISAE 3000 assurance engagement to provide assurance over the collateralisation of the token at specific points in time. The future engagement will aim to review the controls, security and ownership of assets.

Yours sincerely,

HT Digital Ltd
